

## Quick-Reference Chart For Vimasco Products

Product Name	Product Function	Additional Information/Special Notes
<b>COATINGS/MASTICS - General</b>		
WC-1	Weather-barrier mastic	Latex base is polyvinyl-acetate copolymer, excellent for trowel application
WC-1 Nuclear Grade	Weather-barrier mastic	Complies with NRC 1.36 and MIL-DTL-24244D(SH)
WC-5	Weather-barrier mastic	Latex base is vinyl-acrylic copolymer, excellent brushability, E 84 flame spread: 15
WC-7	Weather-barrier mastic	Latex base is vinyl-acrylic copolymer, excellent brushability, E 84 flame spread: 5. Smoke 0
AC-9	Weather-barrier mastic	Latex base is acrylic terpolymer, good low temperature flexibility & elongation
WC-1 Type C	Condensation-control mastic	Cork-filled insulating mastic for below-dew-point equipment, lines, etc.
WC-7 Type C	Condensation-control mastic	Economy version of cork-filled insulating mastic
708	Indoor insulation coating	For use where a full-scale weather barrier isn't needed
749 VaporBlok™	Water-based vapor barrier coating	Low odor water-based vapor barrier, avg. perm rating .03 U.S. Perms, 25/50 rated, "QPL Listed"
739 BrushSeal™	Water-based vapor barrier coating	Commercial grade vapor barrier, avg. perm rating .08 U.S. Perms, 25/50 rated
Protectokote	Weather-barrier mastic	Acrylic coating specifically formulated for use over marine insulation systems; UL Listed
<b>COATINGS/MASTICS - Extra or Actively Fire Retardant</b>		
WC-1 FR	Weather-barrier mastic	A specially fire-resistant version of WC-1
WC-5 FR	Weather-barrier mastic	A specially fire-resistant version of WC-5
Cable Coating 3i	Intumescent coating for grouped cables	Factory Mutual approved for fire protection of grouped cables
<b>ADHESIVES</b>		
136	Lagging adhesive/coating	Low viscosity for paint-like brushability
713	Lagging adhesive/coating	Complies with MIL-A-3316C, Class 1; U.L. classified; Coast Guard approved, QPL listed
713 Nuclear Grade	Lagging adhesive/coating	Also complies with NRC 1.36 and MIL-DTL-24244D(SH), "QPL Listed"
720, 721	Laminating adhesives - cloth to insulation	General purpose facing adhesives
725	Laminating adhesives - foil to insulation	Specially formulated for compatibility with foil facings
727	Laminating adhesive, extra fire resistant	High quality all-purpose facing adhesive, E 84 Flame Spread: 5 Smoke: 0
760	High Temperature fabricating adhesive	Silicate-based, with non-asbestos fibers
760 Nuclear Grade	High Temperature fabricating adhesive	Complies with NRC 1.36 and MIL-DTL-24244D(SH)
770	Binder for sprayed-on insulation	Improves strength of insulations containing portland cement
795	Duct adhesive - insulation to metal	U.L. classified as Russell-Monroe J-545-F
<b>REINFORCING CLOTH</b>		
Elastafab 894 Cloth	Mastic reinforcement (42" width)	100% modacrylic fibers have inherent extensibility and fire resistance
Elastafab 894 Tape	Mastic reinforcement (4" width)	typical 37% elongation is retained even when embedded in mastic

**The above products are low emitting complying with LEED™ IEQ Credit 4.1 and 4.2**
